About Me

I am a **15-year-old Junior Frontend Developer** with a strong passion for web development. Despite my age, I have worked on **real-world projects** and built fully functional websites. I am always eager to learn new technologies and improve my problem-solving skills. My main strengths are **attention to detail, clean code writing, and optimizing website performance**.

SKILLS

Frontend: HTML, CSS, JavaScript (ES6+), **React.js**, **Tailwind CSS**, Bootstrap5, Responsive Web Design, Website Optimization, **SEO**, Jquery , **Nextjs** , Git

 Also: MySQL , **Node.js** , PHP

EXPERIENCE

Full-Stack Developer *khooshesanat*

June 2024 - March 2025 (9 month)

KhoosheSanat.ir is a project built using **HTML, CSS, JavaScript, jQuery, and PHP**, featuring a **fully functional user panel**. Additionally, it includes **ongoing support and maintenance** to keep the system up to date and secure.

Front-End Developer *AcoachGroup*

January 2023 - December 2024 (11 month)

I developed two React-based pages for the company: a **landing page** and a **main page**, both featuring responsive design and smooth user interactions. The project focuses on delivering a modern, fast, and scalable solution
